ASK ABILITIX

ACCURATE ANSWERS FROM YOUR DOCUMENTS — WITH CITATIONS & GOVERNANCE

About Us

Ask Abilitix turns internal documents into a reliable, governed AI assistant. Every answer is sourced from your content, backed by citations, and protected by admin approval workflows. Built for teams that need trustworthy AI — not guesswork.

Production-Ready AI in 10 Business Days

We deploy a production-ready, governed AI knowledge assistant using your documents — so your team gets accurate, citation-backed answers they can trust.

- Ingest 20–80 internal documents
- Create 30–80 approved Q&As
- Deploy chat interface + admin dashboard
- Configure approval workflow & guardrails
- Go-live, training, and handover

Who This Is Ideal For

- ✔ Support team
- ✔ MSP
- ✔ Compiance
- ✔ Technology
- ✔ Knowledge Teams
- ✔ Individual Consultants

Teams with policy-heavy documents, repeat internal questions, or a need for safe, governed AI — including operations, support, compliance, IT, and knowledge teams.

Document Ingestion & Retrieval
Securely ingests your documents and retrieves the most relevant content in real time.

Citations Based Answers
Every answer is backed by clear citations so users can verify the source instantly.

Admin Approval Workflow
Built-in human approval ensures only trusted, reviewed answers are published.

Hallucinations Guardrails
Strict controls prevent the system from guessing or generating unsupported responses.

Secure Multi-Tenant Isolation
Enterprise-grade data isolation keeps each client's information fully segregated and secure.

Analytics & Usage Logs
Detailed logs and insights provide visibility into usage, performance, and answer quality.

Next Step
Book a short discovery call to confirm fit and scope.
Limited pilot slots available.
